

# OHP3D: OpenGL PDF viewer

Ing. František Kučera

Frantovo.cz / GlobalCode.info

28. 12. 2023

# What is OHP3D

- OpenGL PDF viewer
- for X11 and GNU/Linux
- keyboard and mouse control
- filters: GLSL shaders

# Current status

- first public version
- based on ShaderShark and previous private prototype
- still bit raw, lots of missing features
- but displays PDF and applies shaders

- Author: Ing. František Kučera
